New Zealand Scholarships

New Zealand Scholarships empower individuals with the knowledge, skills and qualifications to contribute to economic, social and political development within selected developing countries. They are funded by the New Zealand Aid Programme and managed through the New Zealand Ministry of Foreign Affairs and Trade.

Scholarship recipients are required to return to their home country on completion of their scholarship to work for two years or more. This is so you can apply your new skills and knowledge and contribute to the development of your home country.

Where possible you should refer to data and research that supports your argument.

G3

Section H**Competency Questions**

The following questions will ask you to provide examples that demonstrate particular skills and abilities (competencies) that are important to your future success as a New Zealand Scholar. Please note that you are not required to provide names of individuals or organisations.

It is important that you respond to these questions by:

- 1) Describing the **situation** – provide only a brief summary of the setting, the problem, and the people involved.
- 2) Stating what **action** you took – this is the most important part, explain what you did to address the situation, what your role was, and why you did the things you did.
- 3) Describing the **outcome** – did you achieve what was needed? If not, what lessons did you learn?

When you write your answers please:

- Be careful to choose an example that will let you clearly demonstrate how you display the skills and abilities we are looking for.
- Be very clear about what you specifically did.
- Keep your answers concise and within the word limit. We will not read beyond the word limit.
- Be truthful with your examples, as they may be checked through your referees later on.

An example of a typical question and answer:

Describe a situation when you had to identify a problem and generate a solution.

Describe the situation (100 words)

As part of my Diploma in Marketing, I worked on an assignment with three other students. In our first team meeting we had decided to split the assignment into four components, where each one of us had their own section to complete, and we would meet again in a week's time to complete the assignment.

When we met up for this final meeting, we realised that one of the team misunderstood the instructions and accidentally doubled up on another team member's part of the assignment, leaving us with an incomplete component in our assignment.

What action did you take? (150 words)

In order for us to complete the assignment at the end of our meeting as planned, I suggested we divide up the meeting into two groups. Before we decided on the group members, I asked if anyone needed to leave at the planned end time.

Team member 1 needed to leave at a particular time, so I added him to the first group. Team members 1 and 2 worked on finalising the already completed parts. I worked together with team member 3 and focused on completing the incomplete part. I asked team member 3 to do the research on the required information while I worked this into the structure and communicated with team members 1 and 2 to ensure consistency throughout the whole assignment.

Towards the end, team member 1 had to leave, but the rest of us worked together to finalise the assignment.

What was the outcome? (100 words)

Even though we needed more time to complete the assignment and we had 1 team member leave early, the planned approach to the problem and team work meant that we were able to make a lot of progress in a short space of time.

We were able to complete all components, and add a general introduction and conclusion within the one meeting too.

The final outcome included an "A" for our assignment.

H1

Relationship Management

Describe a situation when it was important for **you** to work with someone you didn't know. Describe how **you** built a good working relationship in a school or work setting.

Describe the situation and why it was important (max. 100 words)

What action did **you** take? (max. 150 words)

What was the outcome of the action? (max. 100 words)

H2

Self Drive

Describe a situation when **you** had to work very hard to achieve what was required.

Describe the situation (max. 100 words)

What action did **you** take? (max. 150 words)
